ANIMAL ENTERPRISE & INNOVATION

ANIMAL SCIENCE

Step into the industry with a hands-on animal science degree. From diversified curriculum to extracurricular activities, the Department of Animal Science will provide you with real world experiences. Find your place in the incredible world of animal science!

Animal Science and Dairy Science

These two majors are a traditional mix of animal management and production with scientific disciplines, including nutrition, genetics, reproduction, behavior, health, etc. The pre-veterinary option incorporates easily with both of these majors.

Animal Enterprise & Innovation

The new AEI major blends animal production and management with business, data and technology. Graduates understand biology and animal products while integrating that information with datasets and business implications to make informed management decisions.

Minors

Animal Nutrition | Animal Science | Meat Science

Certificates

Beef Cattle Production Management
Companion Animal Science and Management
Dairy Cattle Production Management
Equine Science and Management
Poultry Production Management
Swine Production Management

Why Animal Science?

Teaching farms and labs | Internship opportunities
Individualized approach to advising | International experiences
Hands-on learning | Leadership opportunities in student clubs
Animal science help room | Industry exposure
