

NEW FASHION PORK

Swine Production Internship

Jackson, MN

May 13, 2024 - August 2, 2024

Beth Anderson

TASKS

- Assist with daily tasks while shadowing industry professionals
- Learn to identify animal health concerns
- Be attentive and ask questions to grasp better understanding

SKILLS DEVELOPED

- Communication: Actively networked with others throughout the internship
- Processing: Learned how to complete all steps of processing a piglet
- Marketing: Learned how to determine a pig ready for market based off of appearance

NEW EXPERIENCES

- Boar Stud: Learned to make semen cups, analyze semen, collect semen, and package semen
- Packing Plant: Witnessed the whole process, from the kill floor to the packaging of the products

Internships provide real-world career experience; therefore, they can be influential in navigating your future!

I was not only able to grow exponentially in knowledge and experience, but I also experienced personal growth through this internship. I made personal connections with industry professionals and hands-on learned the ins and outs of production swine.
