

How Schwartz was my Serenity

Isabella Budden

Schwartz Farm

Production Intern

Schwartz Farms

Schwartz Farms is located in Sleepy eye, Minnesota. I was there for 12 weeks from May 17 to August 9.

Developed skills

- Better time management skills
- Better communication skills and better networking.
- A better understanding for the swine industry.

Major task

- Worked in the Breeding department of sow barn. Which included AI sows, evaluating wellbeing, and heat checking,
- Worked in the wean to Finish barns where we evaluated wellbeing, administer vaccines when need, and received and loaded pigs.
- Worked in the farrowing department of the sow barn. Where we processed piglets and weaned piglets and sows.

New experiences

- Got to go to Schwartz farms new feed mill.
- Learned How to process piglets.

Advice and testimonial

I would say if someone want to be the next intern for Schwartz farm. They should ask question and talk to the supervisors about how they got to Schwartz Farms. I would say to anyone thinking about applying to the intership just to do they really treat you like family and care about your future.
