

How do I make a recording in Canvas?

You can make recordings using Arc, the Canvas video platform. Arc has a recording feature that allows you to record what is on your screen, along with your voice, and store it on the Arc video platform for use in your course.

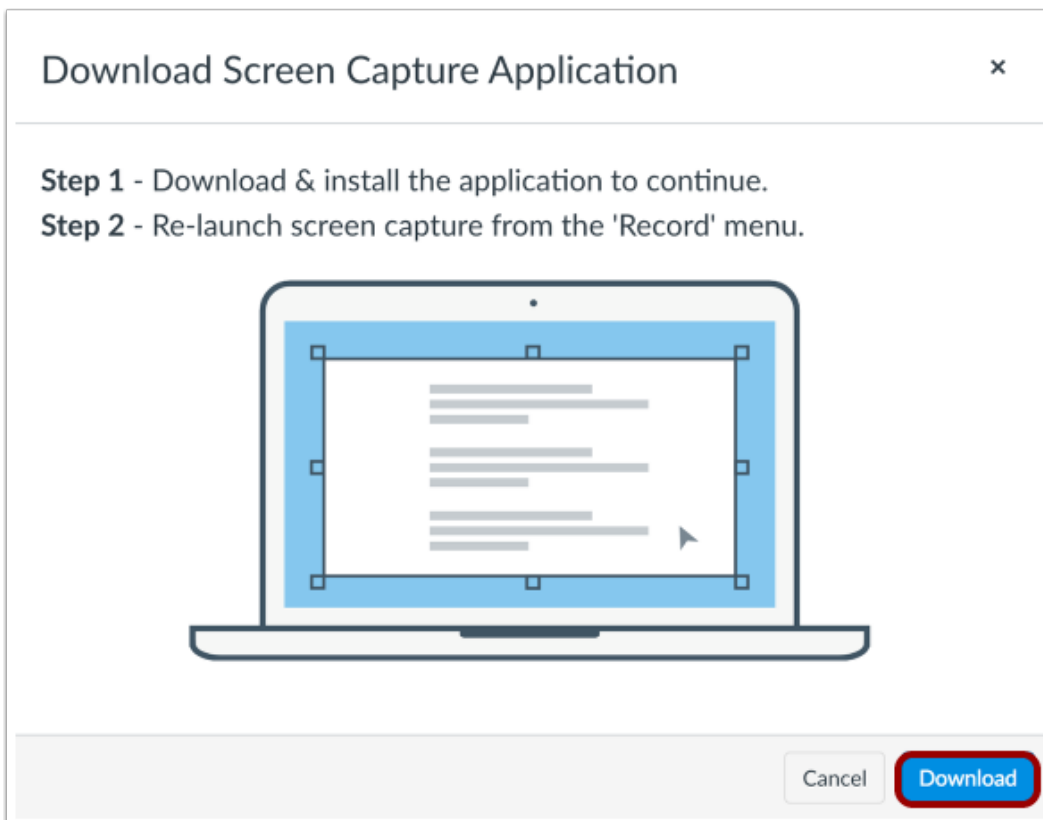

1. Open Arc

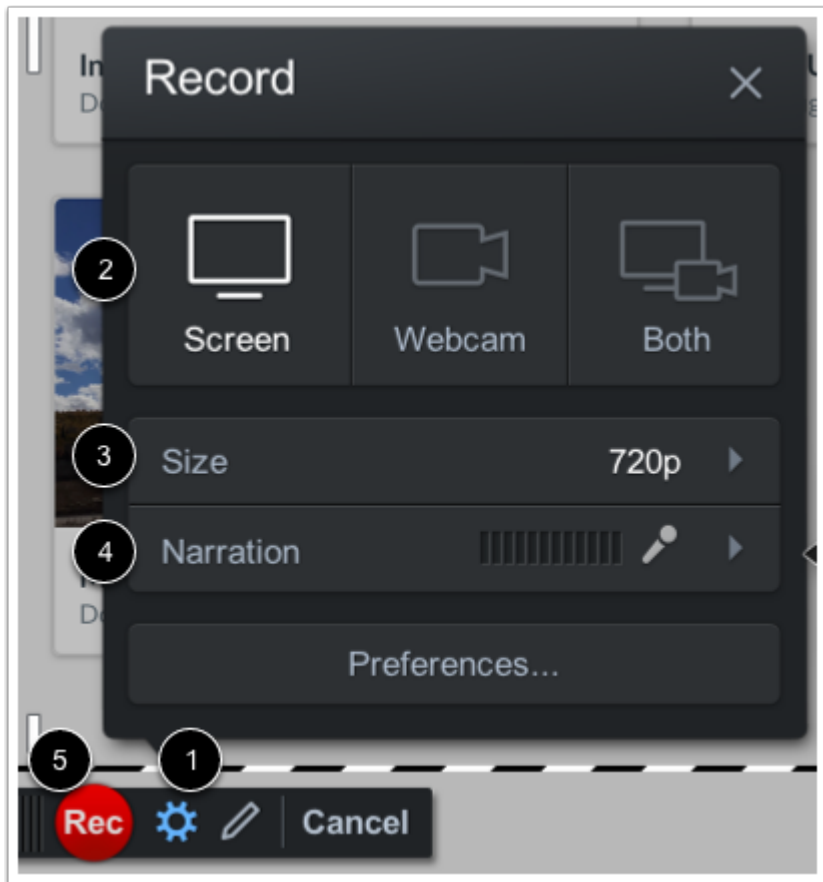

2. Click the **Record** button [1] and then click the **Screen Capture** link [2].

3. Click the **Download** button and install the screen capture application.

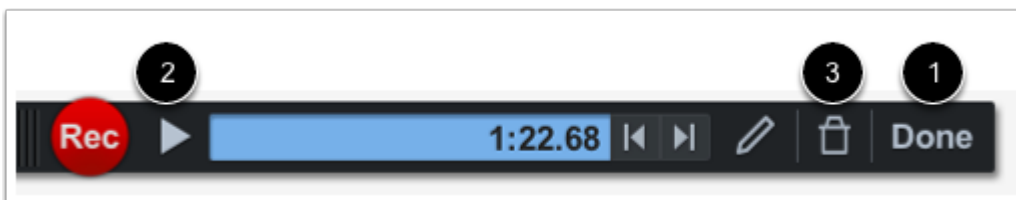

4. Once the software is installed and opened, click the **Settings** icon [1]. You can choose the type of recording you want to make [2], the dimensions of the recording [3], and the narration volume [4].
5. To start recording, click the **Rec** button [5]

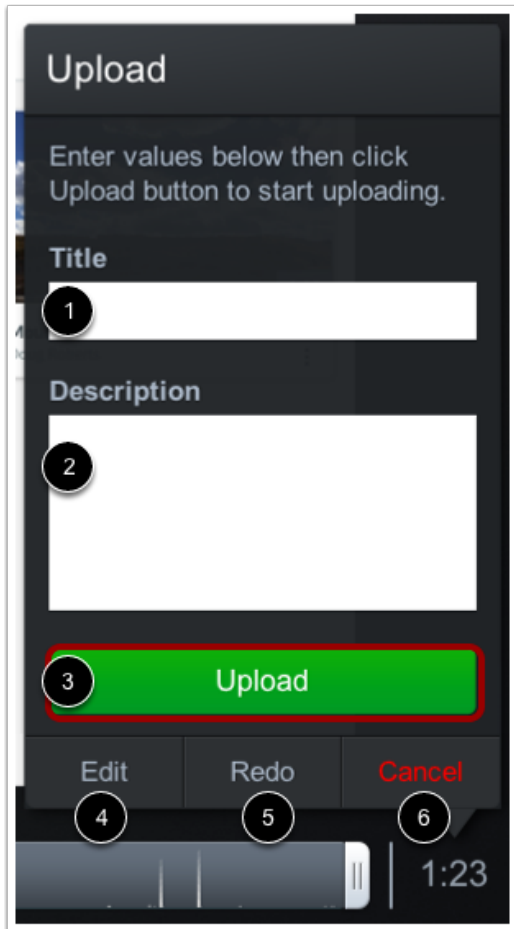

6. Once you have finished recording, click the **Pause** button.

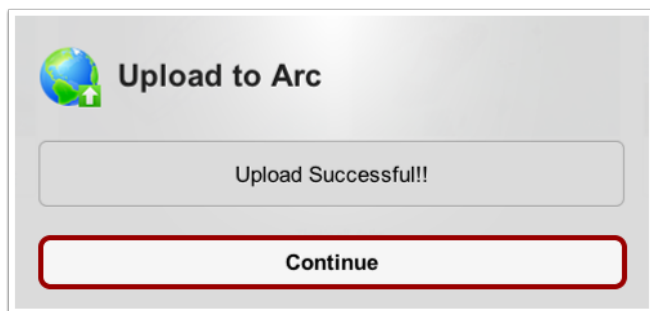

7. Click the **Done** button [1]. To preview the recording, click the **Play** button [2]. To delete the recording and start over, click the **Delete** button [3].

8. To upload the recording, enter a title [1], description [2], and then click the **Upload** button [3]. You can also edit the capture [4], redo the capture [5], or cancel the capture [6].

9. Click the **Continue** button.

10. Return to the **My Uploads** page to see your recording.
